Your Vision, Our Reach.

Junora joins Jun, from our Chinese name, with Aurora, the first light of dawn. It stands for a fresh start for every product we make together.

Your Vision, Our Reach. We take the time to understand what you want to build, then use our factory and our Yiwu network to deliver it.

Our factory

Every Junora product is made in our own factory in Wenzhou, Zhejiang, where we have been manufacturing since 2005. You deal directly with the people who build your order.

Production. Dedicated assembly lines for kitchen, personal care and home appliances, with in-house tooling for custom parts.

Testing. Every batch goes through electrical safety checks and aging tests before packing.

Packing. Retail-ready packaging in your design, with barcodes, manuals and labels for your market.

How OEM / ODM works

- 1. Brief & feasibility.** Specifications, target market, certification needs and price point.
- 2. Design & sampling.** Logo, color, packaging and plug type, confirmed on a physical sample.
- 3. Mass production.** Produced in our own factory, with in-line inspection.
- 4. Inspection & shipping.** Pre-shipment inspection report and loading supervision. FOB, CIF or DDP.

Quality control

Quality is checked at every stage, not only at the end. Here is what happens to your order.

Incoming materials. Components and materials are checked before they enter production.

Pre-production sample. You approve a golden sample. Mass production is matched against it.

In-line inspection. Inspectors check assembly, appearance and function on the line.

Aging & safety tests. Finished units run aging tests and electrical safety checks.

Pre-shipment inspection. A final inspection report with photos is sent to you before shipping.

Loading supervision. We check quantities and packing while the container is loaded.

Third-party inspection welcome. You are welcome to appoint SGS, Bureau Veritas, TÜV, Intertek or any inspection company you trust.

Who we work with

Importers & Wholesalers. Full-container and mixed-container supply for distributors who resell across a country or region.

Retail Chains & Supermarkets. Shelf-ready appliances for supermarkets, department stores and household chains.

E-commerce & Amazon Sellers. Private-label appliances for online marketplaces and direct-to-consumer brands.

Brand Owners (OEM / ODM). Product development and manufacturing for brands that want their own appliance line.

Hotels & Hospitality. Durable in-room appliances for hotels, serviced apartments and hospitality suppliers.
